

CROSS COUNTRY FLYING CLUB FOUNDED IN 2016

Cross Country Flying Club is a flying club based out of beautiful Sunny South Florida. Airport ID KTMB.

Our goal is to provide a social environment and Fly a Complex Aircraft at a reasonable rate to pilots that want to have some great flying adventures in their lives.

Cross Country Flying Club was founded on the principle and vision we share with our members. Our focus is Fly more, Spend Less, and have long Cross Country Flying FUN.

The club aircraft is selected to meet the needs of the members to fly Cross Country around the US and the Caribbean. Our low ratio of 10 members to aircraft means a high label of airplane availability.

Tach time billing saves on every flight. We found this way of billing can be 50% less than the traditional Hobb time.

Our founder Hector Bonilla and Norian Guzman and with the help of AOPA We Can Fly Ambassador we have a created wonderful Flying Club.

We invite you to see why Cross Country Flying Club is the best fit for you and we welcome you to give us a call for a test flight and visit our Modern FBO facility at Tamiami Executive Airport.

Remember Fly More, Spend Less, and have some FUN!

We look forward to seeing you!

Thank you!

Hector Bonilla
Norian Guzman
